## Rare Coin, Jewelry, Art & Antique Auction

### 121: Entry Level 1854 \$3 Gold Piece

USD 300 - 600

The nice obverse on this piece is marred by damage found on the reverse. It is likely that this piece was used as a pin or button at some point in its long live, as evinced by the remnants of solder which partially obscures the date and part of the denomination.

### 122: 1847 Liberty Five Dollar Gold

USD 350 - 650

As an undervalued early \$5 gold piece, the 1847 is a good candidate for type collectors. For the same price, would you rather have an 1847 or a 1907 five dollar coin? The current piece is uncertified, but a pleasing example nonetheless.

### 126: Delightful 1904 \$20 Liberty, NGC MS62+

USD 1,250 - 3,000

### 127: Timeless 1907 Saint-Gaudens High Relief Twenty

USD 5,000 - 15,000

One tenth ounce of pure gold. Uncertified but in excellent condition.

### 149: 1999-W \$5 Gold Eagle Error, NGC MS69

USD 650 - 1,000

In 1999, the West Point Mint only struck gold eagles in proof format. Due to incredible demand for bullion products as the result of the Y2K craze, quality control at the main Mint was compromised. As a result an unpolished proof die--possessing the "W" mintmark--was pressed into service to produce business strike tenth ounce gold eagles. It is estimated that only 6,000 pieces were struck, and we do not know how many survived. The example offered here is graded MS69 by NGC.

### 150: 2006 Buffalo One Ounce \$50 Gold, NGC MS70 FS

USD 1,600 - 2,000

Graded MS70 by NGC and designated as "First Strike," this one ounce gold coin is flawless. The perfect combination of precious metals and numismatic quality.

### 151: Lot of (2) 1899 Black Eagle Silver Certificates

USD 200 - 280

Both notes are well circulated, but show nicely. Each piece grades VG/F, having the usual folds. The Y68347260Y note has seven small pinholes on the major folds, but they are only visible when held to a light. One note is Fr.233 and the other is Fr.235.

### 152: 1917 \$1 Large Size Legal Tender Note, Fr.37

USD 125 - 225

A few folds, but only one is immediately apparent without close examination. The paper retains much crispness and is bright. Due to the folds we call this one XF, but it has the attributes of an AU. Nice corners and no pinholes.

### 153: 1907 \$5 Large Size Woodchopper, Fr.91

USD 150 - 250

Three vertical folds and one horizontal fold limit this note to the XF grade level. There are no major problems worthy of mention, and this note is crisp and vibrant. Light staining is visible on the reverse, as observed in the provided photos.

### 522: Rare Switzerland 1988 Gold 4-Coin Proof Set

USD 3,500 - 5,000

KM #X-MB25a, as cataloged in Krause Publications book Unusual World Coins. These gold coins were struck for the Canton of Luzern in Switzerland in 1988. The obverse shows Helvetia seated, facing left, while the reverse features the Lion of Lucerne, which represents the vindicated honor of the 1792 French revolution. Includes four coins: 1, 1/2, 1/4 and 1/10 Unze (ounce) pieces, with a total pure gold weight of 1.85 troy ounces. These are technically Essai, or pattern coins, and a staggeringly low number of only 54 pieces were struck. As such, this issue is rarely offered for sale, especially as an original set. An NGC PF68 one ounce piece sold at Heritage Auctions in January 2013 for \$3,231. Again, that was for the one ounce piece only. The set offered here comes with a custom three-piece housing and outer cardboard box. The condition of the coins and the packaging is excellent, although we note that the 1/4 ounce gold piece has four small toning spots in the left obverse area. A rare set that offers both the safety of gold bullion and the numismatic allure of an irrefutably rare set.

### 523: 1983 China Panda Gold 25 Yuan, NGC MS69

USD 750 - 850

The second year of issue gold Panda issue, although 1983 marks the first year that Panda coins carried a face value or denomination. The 25 Yuan piece in this auction is composed of 1/4 (0.250) troy ounces of pure gold. NGC has certified the current example at the MS69 level, which is the highest grade possible for this issue; no MS70 pieces have been certified as of the date of this auction. Serial #3356529-281.

### 524: 1983 China Panda Gold 25 Yuan, NGC MS69

USD 750 - 850

Another NGC MS69 example of the 1983 China 25 Yuan gold Panda issue. While the mintage is recorded at 43,827 pieces, it is estimated that less than 27,000 coins are extant today. Of those survivors, few pieces have been well preserved through the years. The NGC Census documents 290 examples graded at the MS69 level, with not a single coin earning an MS70 designation. As a result, it is certain that the population of 290 MS70 coins is inflated due to multiple submission events in the pursuit of the coveted MS70 grade. The coin offered here has a minuscule copper spot on the Panda's upper back, as noted for the sake of full disclosure, although it was nice enough to earn a lofty MS69 designation. Serial #3356529-282.

## Rare Coin, Jewelry, Art & Antique Auction

### 525: 1983 China Panda Gold 25 Yuan, NGC MS69

USD 750 - 850

A third and final 1983 Gold 25 Yuan Panda. This piece is also graded at the MS69 level, and has a sequential serial number to the other two coins (lots 523 and 524). As such, it is likely that the coins were from an original sheet and submitted together. Our consignor purchased the coins already certified, so we will never know for sure. One thing for certain, however, is that the example in this lot is pleasing for the assigned grade, with no problems worthy of individual mention. Serial #3356529-283.
